## CARTE POSTALE

CORRESPONDANCE

ADRESSE

This was the only way our troops could enter or leave Arras for the German surrounded the city on three sides. You could only move about here under cover of darkness and then they used to send across a few odd shells. As you will see by the shell hole on the roof the German knew exactly where our troops had to pass but still we could do the same with his transport.

WE ARRIVED  
 in Arras at 9 P.M. Friday  
 March 3rd. after 15 hours  
 marching in a continual downpour  
 left Arras on Thursday June 22nd  
 10 P.M. on route for the Somme  
 where things were  
 very quiet

Apr. 8 '16, S.S.

This was a fine  
 big hotel once but it  
 isn't very safe to call there  
 for a feed now, for when I  
 was in Arras they used to  
 knock bits of it every  
 day.

This was the only way our troops could enter or leave Arras for the German surrounded the city on three sides. You could only move about here under cover of darkness and then they used to send across a few odd shells. As you will see by the shell hole on the roof the German knew exactly where our troops had to pass but still we could do the same with his transport
